Landing Craft / Non-Amphibious Boat

*Shore to
Shore Boat
Cargo and
Supply
Carrier*

A local island freight company approached us to find an economical way to transport small cargo loads from the mainland to several local islands. We are in the low country of South Carolina and small islands are plentiful. The only way to get to some of these islands is by boat. This company also wanted to transport vehicles along with the supplies for the islanders. The Landing Craft was created. It is a non-amphibious vehicle made from 3/16" aluminum. It features a hydraulic ramp in the front for loading vehicles and equipment from the shoreline.

New 2013 LC36

Length 36'
 Width 10'
 Hull Height 48"
 Cabin Height 7'
 Cabin Dimensions 4'X6'
 Weight Unloaded 6,000
 Unloaded w/Engines 7,000
 Weight Loaded 32,000
 Capacity 25,000lbs

2004 LC30

Length 30'
 Width 10'
 Hull Height 48"
 Cabin Height 7'
 Cabin Dimensions 4'X6'
 Weight Unloaded 5,000
 Unloaded w/Engines 6,000
 Weight Loaded 18,000
 Capacity 12,000lbs

Speeds

LC36 or LC30

Unloaded
 34 Knots
 Loaded
 25-30 Knots
